AMERICAN STYLE PIZZA

Zar treba objašnjenje za PIZZU?

Naravno da treba! U našim poslovnicama mozete probati dvije različite vrste pizze!

U Metropolis Family poslovnici u Bingo City Centru probajte originalnu Napolitansku pizzu dok u ostalim Metropolis poslovnicama možete probati originalnu American Style Pizzu kao novitet naših kuhinja.

AMERICAN STYLE PIZZA

U Sjedinjenim Američkim Državama pizza izgleda malo drugačije nego u ostatku svijeta. Deblje tijesto i bogatiji nadjev osnovne su karakteristike ove vrste Pizze. Postoji više načina pripreme Američke Pizze, a mi našu pečemo u tavi, zbog cega je posebno hrskava i sočna.

Odakle potiče ova vrsta Pizze? Neki tvrde da je pizzu izumila porodica Giordano iz Chicaga, drugi tvrde da potiče iz Detroita, a treći vjeruju da su je prvi napravili osnivači lanca Pizza Hut iz Kansasa.

PIZZA

Who doesn't love PIZZA?

In our Restaurants you can try two different types of pizza!

In the Metropolis Family Restaurant located in Bingo City Center, try the original Neapolitan pizza, while in the other Metropolis Restaurants you can try the American Style Pizza.

AMERICAN STYLE PIZZA

In the United States, pizza is a little different than in the rest of the world. Thicker dough and richer filling are the basic characteristics of this Pizza. There are several ways to prepare American Pizza, and we bake ours in a pan, which makes it crispy and juicy.

Where does this type of pizza come from? Some claim that pizza was invented by the Giordano family from Chicago, others claim that it originated in Detroit, and others believe that it was first made by the founders of the Pizza Hut chain from Kansas.

Dopusti nam da te razmazimo sa slatkim grijehovima!

Za kvalitetu garantuju vrhunski majstori poslastičarstva, koji su dio našeg tima dugi niz godina, te pomno izabrani i kvalitetni sastojci većinski lokalnog porijekla.

Naši kolači i poslastice su dugi niz godina prepoznatljivi kao spoj tradicije i modernih slastičarskih trendova.
